### METHOD

Combine 1/2 cup of the blood orange juice with the sugar in small pot. Bring to a boil, then simmer over low heat, stirring until the sugar is dissolved. Pour into a glass and pop in the fridge to chill. Once the syrup is cold, it's time to assemble your drinks. Add ice to 3 glasses, and add 1.5 ounces of Empress 1908 Gin to each glass. Divide the Blood Orange Syrup evenly, and add 2 ounces fresh blood orange juice to each. Top each drink with tonic water, and garnish with a blood orange slice & fresh rosemary.
